IRAN (ISLAMIC REPUBLIC OF)

[Original: English]

[15 November 1994]

The Government of the Islamic Republic of Iran attaches great importance to transparency in armaments as a confidence-building measure which would facilitate the negotiations of disarmament and arms control treaties. In this context, the United Nations Register of Conventional Arms could serve as a real confidence-building measure only if it expanded to include data and information on all types of conventional weapons as well as weapons of mass-destruction in all their aspects. This was the basic thrust of the General Assembly resolution 46/36 L of 9 December 1991.

The Islamic Republic of Iran submits its reports in the hope that this policy will encourage other countries in the Middle East as well as the Persian Gulf region to take part in the Register. We are convinced that the policies of other Middle Eastern countries would contribute to ensuring the success of the Register.
